NEW GOLD FIELDS.

REWARDS TO DISCOVERERS.

THE Government are prepared to give Rewards to the discoverers of New Gold Fields, in accordance with the following Regulations:—

1. That person will be deemed the discoverer who shall first find gold, mark out a claim, and notify the same in writing to the Gold Commissioner of the district, if there be one—if not, to the Police Magistrate for the district, or of the nearest district. In such notification the discoverer shall state, as nearly as practicable, the exact locality, and the distance from the nearest gold workings, or nearest town.

2. No reward will exceed one thousand pounds. In fixing the amount to be paid for any discovery regard will be had to the number of men employed in the new gold field, its distance from the nearest gold workings, the character of the deposit in which the gold occurs, and the depth of sinking.

3. If two or more persons simultaneously discover gold in the same locality, or in places immediately adjacent, and they each severally comply

with the conditions abovementioned, the sum proper to be awarded will be divided amongst the several persons who have discovered the gold fields in such manner the Government may deem just.

4. Rewards shall be given in accordance with the following scale, namely:—

a. For the discovery of a gold field, distant more than twenty miles from the nearest gold workings, and on which there shall be employed three months after the report of the discovery having been made not less than 200 men, a sum not exceeding £500.

b. For the discovery of a gold field, distant more than twenty miles from the nearest gold workings, and on which there shall be employed six months after the report of the discovery not less than 500 men, a sum not exceeding £1,000.

The words "nearest gold workings" shall mean gold workings on which miners are actually employed in searching for gold.

The above rewards are in addition to the prospecting, or reward claims, to which, by the Gold Fields Regulations of 31st October, 1873, discoverers of new fields are entitled.

NOTICE TO MARINERS.

ENDEAVOUR RIVER.

IN consequence of the narrowness of the channel and the want of available space for swinging within the Port, Masters of Vessels bound for the Endeavour River are cautioned not to enter without a Pilot.

If when they arrive off the Port the Pilot is not available, they must either stand off and on until he is able to get out to them, or anchor off the mouth of the river in six fathoms, being careful to keep Walker Point open of Monkhouse Point. They must also have warps in readiness for mooring by the stern, if necessary.

Sailing vessels visiting the Port should be provided with good long lines and handy kedges, as, during the S.E. trades, vessels always have to be warped out of the river.

A Signal Station will shortly be established, from which the necessary directions will be given to vessels arriving off the Endeavour, and warping buoys will also be laid down to facilitate the movements of vessels in and out of the Port.

NEW GOLD FIELDS.

REWARDS TO DISCOVERERS.

THE Government are prepared to give Rewards to the discoverers of New Gold Fields, in accordance with the following Regulations:—

1. That person will be deemed the discoverer who shall first find gold, mark out a claim, and notify the same in writing to the Gold Commissioner of the district, if there be one—if not, to the Police Magistrate for the district, or of the nearest district. In such notification the discoverer shall state, as nearly as practicable, the exact locality, and the distance from the nearest gold workings, or nearest town.

2. No reward will exceed one thousand pounds. In fixing the amount to be paid for any discovery regard will be had to the number of men employed in the new gold field, its distance from the nearest gold workings, the character of the deposit in which the gold occurs, and the depth of sinking.

3. If two or more persons simultaneously discover gold in the same locality, or in places immediately adjacent, and they each severally comply with the conditions abovementioned, the sum proper to be awarded will be divided amongst the several persons who have discovered the gold fields in such manner the Government may deem just.

4. Rewards shall be given in accordance with the following scale, namely:—

a. For the discovery of a gold field, distant more than twenty miles from the nearest gold workings, and on which there shall be employed three months after the report of the discovery having been made not less than 200 men, a sum not exceeding £500.

b. For the discovery of a gold field, distant more than twenty miles from the nearest gold workings, and on which there shall be employed six months after the report of the discovery not less than 500 men, a sum not exceeding £1,000.

The words "nearest gold workings" shall mean gold workings on which miners are actually employed in searching for gold.

The above rewards are in addition to the prospecting, or reward claims, to which, by the Gold Fields Regulations of 31st October, 1873, discoverers of new fields are entitled.

NEW GOLD FIELDS.

REWARDS TO DISCOVERERS.

THE Government are prepared to give Rewards to the discoverers of New Gold Fields, in accordance with the following Regulations:—

1. That person will be deemed the discoverer who shall first find gold, mark out a claim, and notify the same in writing to the Gold Commissioner of the district, if there be one—if not, to the Police Magistrate for the district, or of the nearest district. In such notification the discoverer shall state, as nearly as practicable, the exact locality, and the distance from the nearest gold workings, or nearest town.

2. No reward will exceed one thousand pounds. In fixing the amount to be paid for any discovery regard will be had to the number of men employed in the new gold field, its distance from the nearest gold workings, the character of the deposit in which the gold occurs, and the depth of sinking.

3. If two or more persons simultaneously discover gold in the same locality, or in places immediately adjacent, and they each severally comply with the conditions abovementioned, the sum proper to be awarded will be divided amongst the several persons who have discovered the gold fields in such manner the Government may deem just.

4. Rewards shall be given in accordance with the following scale, namely:—

a. For the discovery of a gold field, distant more than twenty miles from the nearest gold workings, and on which there shall be employed three months after the report of the discovery having been made not less than 200 men, a sum not exceeding £500.

b. For the discovery of a gold field, distant more than twenty miles from the nearest gold workings, and on which there shall be employed six months after the report of the discovery not less than 500 men, a sum not exceeding £1,000.

The words "nearest gold workings" shall mean gold workings on which miners are actually employed in searching for gold.

The above rewards are in addition to the prospecting, or reward claims, to which, by the Gold Fields Regulations of 31st October, 1873, discoverers of new fields are entitled.

NEW GOLD FIELDS.

REWARDS TO DISCOVERERS.

THE Government are prepared to give Rewards to the discoverers of New Gold Fields, in accordance with the following Regulations:—

1. That person will be deemed the discoverer who shall first find gold, mark out a claim, and notify the same in writing to the Gold Commissioner of the district, if there be one—if not, to the Police Magistrate for the district, or of the nearest district. In such notification the discoverer shall state, as nearly as practicable, the exact locality, and the distance from the nearest gold workings, or nearest town.

2. No reward will exceed one thousand pounds. In fixing the amount to be paid for any discovery regard will be had to the number of men employed in the new gold field, its distance from the nearest gold workings, the character of the deposit in which the gold occurs, and the depth of sinking.

3. If two or more persons simultaneously discover gold in the same locality, or in places immediately adjacent, and they each severally comply with the conditions abovementioned, the sum proper to be awarded will be divided amongst the several persons who have discovered the gold fields in such manner the Government may deem just.

4. Rewards shall be given in accordance with the following scale, namely:—

a. For the discovery of a gold field, distant more than twenty miles from the nearest gold workings, and on which there shall be employed three months after the report of the discovery having been made not less than 200 men, a sum not exceeding £500.

b. For the discovery of a gold field, distant more than twenty miles from the nearest gold workings, and on which there shall be employed six months after the report of the discovery not less than 500 men, a sum not exceeding £1,000.

The words "nearest gold workings" shall mean gold workings on which miners are actually employed in searching for gold.

The above rewards are in addition to the prospecting, or reward claims, to which, by the Gold Fields Regulations of 31st October, 1873, discoverers of new fields are entitled.

NOTICE TO MARINERS.

PETRIE REEF, WESTERN PACIFIC.

PETRIE Reef, discovered by Lieutenant Petrie, in 1835, and marked *Petria* (?), on the Admiralty Charts, was sighted on the 5th March, by Captain Goodall, in the "May Queen." He places the reef—which he describes as about $5\frac{1}{2}$ miles long by 3 miles wide—in the following position, viz. :—

North Point, latitude $18^{\circ} 31' 0''$ S.
longitude $164^{\circ} 26' 0''$ E.
South Point, latitude $18^{\circ} 36' 26''$ S.
longitude $164^{\circ} 24' 35''$ E.

On the north-west side he observed an opening into a lagoon, apparently of deep water. This opening was about two miles wide, with a detached reef just within the entrance and towards its north-eastern side. There appeared also to be a small opening at the southern extremity of the Main Reef. The sand banks on the western and south-eastern sides of the reef were estimated at low water to be 20 to 25 feet high. Off the northern extremity of the reef, a strong tide rip was observed, the stream setting to the north-east.

NEW GOLD FIELDS.

REWARDS TO DISCOVERERS.

THE Government are prepared to give Rewards to the discoverers of New Gold Fields, in accordance with the following Regulations:—

1. That person will be deemed the discoverer who shall first find gold, mark out a claim, and notify the same in writing to the Gold Commissioner of the district, if there be one—if not, to the Police Magistrate for the district, or of the nearest district. In such notification the discoverer shall state, as nearly as practicable, the exact locality, and the distance from the nearest gold workings, or nearest town.

2. No reward will exceed one thousand pounds. In fixing the amount to be paid for any discovery regard will be had to the number of men employed in the new gold field, its distance from the nearest gold workings, the character of the deposit in which the gold occurs, and the depth of sinking.

3. If two or more persons simultaneously discover gold in the same locality, or in places immediately adjacent, and they each severally comply with the conditions abovementioned, the sum proper to be awarded will be divided amongst the several persons who have discovered the gold fields in such manner the Government may deem just.

4. Rewards shall be given in accordance with the following scale, namely:—

a. For the discovery of a gold field, distant more than twenty miles from the nearest gold workings, and on which there shall be employed three months after the report of the discovery having been made not less than 200 men, a sum not exceeding £500.

b. For the discovery of a gold field, distant more than twenty miles from the nearest gold workings, and on which there shall be employed six months after the report of the discovery not less than 500 men, a sum not exceeding £1,000.

The words "nearest gold workings" shall mean gold workings on which miners are actually employed in searching for gold.

The above rewards are in addition to the prospecting, or reward claims, to which, by the Gold Fields Regulations of 31st October, 1873, discoverers of new fields are entitled.

The total balance will be paid when the entire contract shall have been completed to the satisfaction of the Government.

W. ALCOCK TULLY,

To all to whom these presents shall come.

I, George Henry Davenport, of Toowoomba, in the Colony of Queensland,

Send greeting:

WHEREAS, disputes and differences having arisen between William Graham, of St. Ronans, in the colony aforesaid, and Edwin Holmes, of Haran, in the said colony, the said William Graham nominated and appointed George Telford Weale, and the said Edwin Holmes nominated and appointed William Carter Balls, as arbitrators, to whom the said William Graham and Edwin Holmes referred the said disputes and differences, and for them to hear and determine the same and make their award thereon, and the said William Graham and the said Edwin Holmes agreed that the said arbitrators should, before they entered upon the matters referred to them, nominate and appoint, by writing under their hands, an umpire to decide on such matters, in case they differed and could not agree on making their award, and that the decision of such umpire on the matters referred should be final; and it was further agreed between them that the costs of and attending such arbitration, to be determined by the said arbitrators, should be in the discretion of the arbitrators or their said umpire, as the case might be; and whereas the said arbitrators took upon themselves the burden of the said arbitration, and, before they entered into the matters

referred to them, nominated and appointed, by writing under their hand, me, George Henry Davenport, as an umpire, according to the said agreement, in any such matters on which they differed; and whereas the said arbitrators differed and were unable to agree upon their award in respect to the matters referred to them as aforesaid, and thereupon the said disputes and differences were referred to me for my award and determination thereon, as umpire as aforesaid; and I, the said George Henry Davenport, having taken upon myself the burthen of the said references and umpirage, and having heard, examined, and considered the allegations, witnesses, and evidence of both the said parties, concerning the premises, and done and performed all things; and all things having happened and existing to enable me to make my umpirage and award as aforesaid; do make and publish this my umpirage and award of and concerning the same in the manner following, that is to say:—I award and determine that the boundary of Coomrith, as between that run and Wangaby, shall be in favor of William Graham, as defined by map marked G, exhibited to the arbitrators and umpire, and proved as commencing at a tree close to the scrub between Kinkabilla and Wongle Creeks marked B in triangle, but which tree, from the evidence taken before me, is marked broad-arrow over B over 73 in triangle; and this line, running north and south from this tree, is the eastern boundary of the Coomrith block; which map, marked G, is hereunto annexed to this my award, and to be deposited in the Crown Lands Office, Toowoomba. And I award and determine that the said Edwin Holmes do and shall forthwith pay to the said William Graham all costs and charges of and attending the said arbitration, including arbitrators' and umpire's fees, as well as the costs of this my award, and which sum I award and determine to amount to fifty-nine pounds nine shillings and fourpence; and I award that the said Edwin Holmes do and shall pay the said sum of fifty-nine pounds nine shillings and fourpence to the said William Graham forthwith.

In witness whereof, I have hereunto set my hand, this ninth day of May, one thousand eight hundred and seventy-four.

NEW GOLD FIELDS.

REWARDS TO DISCOVERERS.

THE Government are prepared to give Rewards to the discoverers of New Gold Fields, in accordance with the following Regulations:—

1. That person will be deemed the discoverer who shall first find gold, mark out a claim, and notify the same in writing to the Gold Commissioner of the district, if there be one—if not, to the Police Magistrate for the district, or of the nearest district. In such notification the discoverer shall state, as nearly as practicable, the exact locality, and the distance from the nearest gold workings, or nearest town.

2. No reward will exceed one thousand pounds. In fixing the amount to be paid for any discovery regard will be had to the number of men employed in the new gold field, its distance from the nearest gold workings, the character of the deposit in which the gold occurs, and the depth of sinking.

3. If two or more persons simultaneously discover gold in the same locality, or in places immediately adjacent, and they each severally comply with the conditions abovementioned, the sum proper to be awarded will be divided amongst the several persons who have discovered the gold fields in such manner the Government may deem just.

4. Rewards shall be given in accordance with the following scale, namely:—

a. For the discovery of a gold field, distant more than twenty miles from the nearest gold workings, and on which there shall be employed three months after the report of the discovery having been made not less than 200 men, a sum not exceeding £500.

b. For the discovery of a gold field, distant more than twenty miles from the nearest gold workings, and on which there shall be employed six months after the report of the discovery not less than 500 men, a sum not exceeding £1,000.

The words "nearest gold workings" shall mean gold workings on which miners are actually employed in searching for gold.

The above rewards are in addition to the prospecting, or reward claims, to which, by the Gold Fields Regulations of 31st October, 1873, discoverers of new fields are entitled.

W. ALCOCK TULLY,

To all to whom these presents shall come.

I, George Henry Davenport, of Toowoomba, in the Colony of Queensland,

Send greeting:

WHEREAS, disputes and differences having arisen between William Graham, of St. Ronans, in the colony aforesaid, and Edwin Holmes, of Haran, in the said colony, the said William Graham nominated and appointed George Telford Weale, and the said Edwin Holmes nominated and appointed William Carter Balls, as arbitrators, to whom the said William Graham and Edwin Holmes referred the said disputes and differences, and for them to hear and determine the same and make their award

thereon, and the said William Graham and the said Edwin Holmes agreed that the said arbitrators should, before they entered upon the matters referred to them, nominate and appoint, by writing under their hands, an umpire to decide on such matters, in case they differed and could not agree on making their award, and that the decision of such umpire on the matters referred should be final; and it was further agreed between them that the costs of and attending such arbitration, to be determined by the said arbitrators, should be in the discretion of the arbitrators or their said umpire, as the case might be; and whereas the said arbitrators took upon themselves the burden of the said arbitration, and, before they entered into the matters referred to them, nominated and appointed, by writing under their hand, me, George Henry Davenport, as an umpire, according to the said agreement, in any such matters on which they differed; and whereas the said arbitrators differed and were unable to agree upon their award in respect to the matters referred to them as aforesaid, and thereupon the said disputes and differences were referred to me for my award and determination thereon, as umpire as aforesaid; and I, the said George Henry Davenport, having taken upon myself the burthen of the said references and umpirage, and having heard, examined, and considered the allegations, witnesses, and evidence of both the said parties, concerning the premises, and done and performed all things; and all things having happened and existing to enable me to make my umpirage and award as aforesaid; do make and publish this my umpirage and award of and concerning the same in the manner following, that is to say:—I award and determine that the boundary of Coomrith, as between that run and Wangaby, shall be in favor of William Graham, as defined by map marked G, exhibited to the arbitrators and umpire, and proved as commencing at a tree close to the scrub between Kinkabilla and Wongle Creeks marked B in triangle, but which tree, from the evidence taken before me, is marked broad-arrow over B over 73 in triangle; and this line, running north and south from this tree, is the eastern boundary of the Coomrith block; which map, marked G, is hereunto annexed to this my award, and to be deposited in the Crown Lands Office, Toowoomba. And I award and determine that the said Edwin Holmes do and shall forthwith pay to the said William Graham all costs and charges of and attending the said arbitration, including arbitrators' and umpire's fees, as well as the costs of this my award, and which sum I award and determine to amount to fifty-nine pounds nine shillings and fourpence; and I award that the said Edwin Holmes do and shall pay the said sum of fifty-nine pounds nine shillings and fourpence to the said William Graham forthwith.

In witness whereof, I have hereunto set my hand, this ninth day of May, one thousand eight hundred and seventy-four.

NEW GOLD FIELDS.

REWARDS TO DISCOVERERS.

THE Government are prepared to give Rewards to the discoverers of New Gold Fields, in accordance with the following Regulations:—

1. That person will be deemed the discoverer who shall first find gold, mark out a claim, and notify the same in writing to the Gold Commissioner of the district, if there be one—if not, to the Police Magistrate for the district, or of the nearest district. In such notification the discoverer shall state, as nearly as practicable, the exact locality, and the distance from the nearest gold workings, or nearest town.

2. No reward will exceed one thousand pounds. In fixing the amount to be paid for any discovery regard will be had to the number of men employed in the new gold field, its distance from the nearest gold workings, the character of the deposit in which the gold occurs, and the depth of sinking.

3. If two or more persons simultaneously discover gold in the same locality, or in places immediately adjacent, and they each severally comply with the conditions abovementioned, the sum proper to be awarded will be divided amongst the several persons who have discovered the gold fields in such manner the Government may deem just.

4. Rewards shall be given in accordance with the following scale, namely:—

a. For the discovery of a gold field, distant more than twenty miles from the nearest gold workings, and on which there shall be employed three months after the report of the discovery having been made not less than 200 men, a sum not exceeding £500.

b. For the discovery of a gold field, distant more than twenty miles from the nearest gold workings, and on which there shall be employed six months after the report of the discovery not less than 500 men, a sum not exceeding £1,000.

The words "nearest gold workings" shall mean gold workings on which miners are actually employed in searching for gold.

The above rewards are in addition to the prospecting, or reward claims, to which, by the Gold Fields Regulations of 31st October, 1873, discoverers of new fields are entitled.

EXTRACT FROM THE INDIAN "GOVERNMENT
TELEGRAPH GAZETTE" OF 6TH JANUARY.

The attention of the Bureau International des Administrations Telegraphiques having been directed to the increasing frequency of the practice of joining together words which do not admit of such combinations, it has been decided that any Telegraphic Administration over whose lines a Message passes, has the right to demand that the cost of extra words chargeable shall be recovered from the sender, and credited in the International accounts.

2. In accordance with Article 49 of the Rome Convention, and with the notice printed on the back of receipts for Foreign Messages, undercharges are recoverable from the sender.

3. Webster's Dictionary has been adopted as the standard for all English words. Words separated by a hyphen in that dictionary are regarded as so many separate words, and only those written continuously without space or hyphen can be accepted as single words.

NEW GOLD FIELDS.

REWARDS TO DISCOVERERS.

THE Government are prepared to give Rewards to the discoverers of New Gold Fields, in accordance with the following Regulations:—

1. That person will be deemed the discoverer who shall first find gold, mark out a claim, and notify the same in writing to the Gold Commissioner of the district, if there be one—if not, to the Police Magistrate for the district, or of the nearest district. In such notification the discoverer shall state, as nearly as practicable, the exact locality, and the distance from the nearest gold workings, or nearest town.

2. No reward will exceed one thousand pounds. In fixing the amount to be paid for any discovery regard will be had to the number of men employed in the new gold field, its distance from the nearest gold workings, the character of the deposit in which the gold occurs, and the depth of sinking.

3. If two or more persons simultaneously discover gold in the same locality, or in places immediately adjacent, and they each severally comply

with the conditions abovementioned, the sum proper to be awarded will be divided amongst the several persons who have discovered the gold fields in such manner the Government may deem just.

4. Rewards shall be given in accordance with the following scale, namely:—

a. For the discovery of a gold field, distant more than twenty miles from the nearest gold workings, and on which there shall be employed three months after the report of the discovery having been made not less than 200 men, a sum not exceeding £500.

b. For the discovery of a gold field, distant more than twenty miles from the nearest gold workings, and on which there shall be employed six months after the report of the discovery not less than 500 men, a sum not exceeding £1,000.

The words "nearest gold workings" shall mean gold workings on which miners are actually employed in searching for gold.

The above rewards are in addition to the prospecting, or reward claims, to which, by the Gold Fields Regulations of 31st October, 1873, discoverers of new fields are entitled.

NOTICE TO MARINERS.

THE following Hydrographical information relative to the Fiji Islands and New Caledonia is published for general information.

WILLIAM HEMMANT.

Her Majesty's Ship "Pearl,"

HYDROGRAPHICAL MEMORANDUM No. 4.

THE accompanying Hydrographical information relative to the Fiji Islands and New Caledonia is promulgated for general information.

(Signed) JAMES G. GOODENOUGH,

Captain, and Commodore Second Class,
Commanding Australian Station.

To the respective Captains, and
Commanding Officers, &c.

FIJI ISLANDS.—NEW CALEDONIA.

Extract from Remark Book of Navigating Lieutenant
Henry Hosken, of H.M.S. "Pearl."

FIJI GROUP.

Kadavu.

The Astrolabe Reef, which stretches to the north of Kadavu, is imperfectly delineated on General Chart 2691. From observations taken when off the northern extreme of the reef, the North Rock was found to be 1' too far North. It should be in latitude $18^{\circ} 37'$ S., $1\frac{1}{2}'$ inside the extreme of the reef.

The reef also stretches $2\frac{1}{2}'$ further to the eastward (abreast the North end of Ono Island) than shown on the chart.

West Bay.
Galoa Bay.
Beacons.

There are now two beacons erected, one on the southern hummock of Galoa Island, the other on the mainland of Kadavu Island. When in line of bearing N. 89° W., they lead through the channel between Middle Reef and South Reef; but, as they are not placed at right angles to the passage, they lead dangerously close to both reefs. The inner beacon, in misty weather, is often obscured.

buoys.

The Mail Company have placed a red buoy just inside the south edge of "Middle Patch," another red buoy outside the extreme of the spit which stretches off the south extreme of Galoa Island, and a black buoy on the centre patch. These buoys are indifferently moored, and cannot be relied on.

Viti Levu.
Navua.

The land about Navua, south side of Viti Levu, is not correctly laid down on the general Chart, between the reefs stretching off the mainland and the reefs north of Bega Island. There is only a passage of 2' wide, instead of 8', as shown on the chart.

Taviuni.

Vuna Point opened out clear of South Point N.W. $\frac{1}{2}$ N., forming a bay under the reef which stretches to the westward. Vuna Point stretches out 2' further than shown on general Chart, which leaves the extremity of the reef only 2' from the Point.

Somo-Somo
Straits.

Bring Rabi Island to bear N. $\frac{3}{4}$ E.; steer for it, passing between the shoal patches which extend $\frac{3}{4}'$ to the West of Goat Island and a number of detached reefs which stretch off to the eastward from Mount Cocomat Point about 2', leaving a channel of not more than 2' in width. Rabi Island appears to be placed $1\frac{1}{2}'$ too far to the eastward on the chart.

Goat Island.

A reef surrounds Goat Island, stretching off about 1' South, $\frac{3}{4}'$ West, and 1' North. Between Goat Island and Taviuni there is said to be an intricate channel for small craft.

Anchorage.

The anchorage off Vuna Plantation, north of Vuna Reef, and the one off Somo-Somo, are very close inshore, with deep water (15 to 30 fathoms), and circumscribed. The former has very bad holding ground; but the latter, having soft bottom, affords fair holding ground.

NEW CALEDONIA.

The Kie Inner Bank could not be made out from the "Pearl's" masthead, although she passed close to its assigned position. It is not shown on any of the charts of the recent French surveys, nor is its existence known to the French officers or pilots.

Passage from Woodin Channel to Noumea.

The best passage—the one used by the French men-of-war, and recommended by the pilots—is that called the Tareti Channel. Pass North of Tareti (sandbank) and South of the "Nakae Shoals;" these, together with the "Four Northern Banks," always show above water;—then mid-channel for Noumea. This is better than the Porcupine Island passage, recommended on the chart, on account of the Oliver Bank and Providence Shoal not being always visible. They were not seen from the masthead as the "Pearl" passed near them.

Information received from M. Villemot, Lieutenant de Vaisseau, commanding the French War Transport "Cher."

The Roche du Var is a dangerous rock lying $7\frac{1}{2}'$ N.N.E. $\frac{1}{2}$ E. from the entrance to the Havannah Passage. It is in latitude $22^{\circ} 14' 25''$ S., longitude $167^{\circ} 9' 15''$ E. From it, a peak on the mainland is in line with South extreme of Nau Island, bearing S. $66\frac{1}{2}^{\circ}$ W., and the South extreme of Cape Ndua bears S. $41\frac{3}{4}^{\circ}$ W. There is only a depth of two metres on it.

Information received from M. Gustave Fabre, Pilot for New Caledonia.

There is a reef (about $1\frac{1}{2}'$ in diameter) not marked on Chart No. 2906, corrected to March, 1869, with nine feet of water over it, which generally breaks. It lies nearly in the fairway from the Isle of Pines to Woodin Passage. It is $2\frac{1}{2}'$ S.E. by E. $\frac{1}{2}$ E. from Nuare Island, and $2\frac{1}{2}'$ W. by S. $\frac{3}{4}$ S. from Amère Island, being in latitude $22^{\circ} 27' 12''$ S., longitude $167^{\circ} 4'$ E.

The small shoal of $3\frac{1}{2}$ fathoms, which lies $1\frac{1}{2}'$ E. of Uen Island, in latitude $22^{\circ} 25\frac{3}{4}'$ S., longitude $166^{\circ} 53\frac{1}{2}'$ E., has only three feet of water over it. The sea breaks over it.

The Senex Reef breaks with Westerly and South-westerly winds.

The Larégnère Reef always breaks. The Constantine Passage is nearly blocked up by a long reef running parallel to the shore, not shown on Chart No. 936b of 1856 and 1867.

The Nikite Passage is reduced in width to about $\frac{1}{2}'$ by an extension of the reefs which form it.

Extract from the "Moniteur" of 4th February, 1874.

Mr. Hovell, commanding the British ship, "Australasian Packet," states that he saw the Nereus Shoal in latitude $20^{\circ} 10'$ S., longitude $160^{\circ} 5'$ E.; whereas on the charts, it is shown in latitude $20^{\circ} 5'$ S., longitude $160^{\circ} 30'$ E.

The whole contract to be completed and handed over to the Government within six (6) months from the notification of the acceptance of the Tender.

GENERAL CONDITIONS.

Payment will be made monthly to the extent of seventy-five (75) per cent. on the value of the work reported to have been completed by the officer appointed to inspect the same; but notwithstanding such report and payment on account, the Superintendent of Electric Telegraphs, or other officer appointed by him in that behalf, shall have full power at any time afterwards, before final payment shall be made, of rejecting and condemning any of the work or materials in respect of which such reports and payments may have been made. The total balance will be paid when the entire contract shall have been completed to the satisfaction of the Government.

The Government reserves to itself the right to make use of the line for the transmission of messages, prior to final completion. Such use of the line not to prejudice in any way the power to subsequently reject or condemn any portion of the work or materials.

The contractor may avail himself of the facilities afforded by "The Electric Telegraph Act" for obtaining materials, on signing a Bond indemnifying the Government against any claims for compensation arising from the action of the contractor, and providing for any claims being paid by the Superintendent from moneys due to the contractor, if not otherwise settled.

The contractor will be responsible for all claims for compensation for damage to fences or other property, caused by the erection of the line; also for damage so caused to roads; and if such claims are not defrayed, the Superintendent is authorised to pay the same from any moneys due to the contractor.

Should the contractor fail to proceed in the execution of, or to complete the work in the manner and at the rate of progress required by the Government, it shall be in the power of the Government, by a notice in the *Queensland Government Gazette*, to terminate the contract as far as relates to the work remaining to be done, and to enforce the penalties for the non-fulfilment of the contract; and all sums of money which may be due to the contractor, together with all materials and implements in his possession on the ground, and all sums of money, whether named in the Bond to be entered into by the contractor or otherwise, as penalties for the non-fulfilment of the contract, shall be forfeited to the Government, and the amount shall be considered as ascertained damages for breach of contract.

Attached to each Tender there must be a memorandum signed by the party tendering and two responsible persons as sureties, agreeing to be answerable for the due performance of the contract within the time stipulated, in the event of the Tender being accepted; and undertaking in that event, that they will severally execute and deliver, at the Office of the Crown Solicitor, in Brisbane, within ten (10) days from the notification of the acceptance of the Tender, a Bond to Her Majesty in a sum equal to twenty (20) per cent. on the amount of the Tender.

The Government does not bind itself to accept the lowest or any Tender.

SPECIFICATION.

The course of the line to be marked out by the contractor under the direction of the inspecting officer.

All trees and underwood standing within forty (40) feet on each side of the line to be felled, and all timber within a radius of (20) feet from each pole to be cleared away, and a good straight bridle-track of not less than eight (8) feet in width to be left open within the clearing.

Any branches overhanging from trees beyond the distance mentioned, which, in the judgment of the inspecting officer, might endanger the line, to be removed.

All existing cleared roads which may become blocked by fallen timber, must be cleared by the removal of the timber to the original width of such roadway.

In cases where tracks may become blocked, all fallen timber must be removed, leaving a cleared space of not less than twenty (20) feet in width, following the course of such track.

Poles to be heavy straight saplings of the best description of approved hardwood (no spotted gum or Moreton Bay ash being allowed), with the bark removed, not less than nine (9) inches in diameter at five (5) feet from the butt, and five (5) inches in diameter at the top; and twenty-five (25) feet in length; to be carefully and thoroughly charred from the base upwards, over a space of six (6) feet, and well coated with the best coal tar; the top to be firmly bound at one (1) inch from its extremity with good hoop iron of not less than one (1) inch wide.

The top of each pole to be bored for the insulator pin, and served with a thick coating of white lead.

The poles to be not more than eighty-eight (88) yards apart, unless by special permission; to be sunk five (5) feet in the ground, placed in a perpendicular position, and well rammed with rubble and earth. At angles, or other places where required, struts, or supports of wood, to be supplied and fixed as directed.

Insulator pins (to be provided by contractor) to be of split ironbark, according to pattern supplied, and to be fitted as directed; the lip of the insulator to be not less than one inch from the top of the pole. The wire to be so stretched that the deflection between any two posts shall not exceed two (2) feet. *Joints or splices to be made as directed*, and the wire tied to the insulator with the binding wire supplied.

All material used in the construction of this work, or any part of it, to be of the best quality, and, together with the workmanship, are to be subject to the final approval or rejection of the Superintendent of Electric Telegraphs, or any officer appointed by him to inspect the same.

Tender forms, and every information, may be obtained on application at the Office of the Superintendent of Electric Telegraphs, Brisbane.

EXTRACT FROM "THE LONDON GAZETTE" OF
FRIDAY, MARCH 20, 1874.

At the Court at Windsor, the 17th day of March, 1874.

Present—The Queen's Most Excellent Majesty in Council.

WHEREAS by an Act of Parliament made and passed in the Session of Parliament holden in the thirty-third and thirty-fourth years of the reign of Her present Majesty, intituled "*An Act for Amending the Law relating to the Extradition of Criminals*," it was amongst other things enacted, that where an arrangement has been made with any foreign State with respect to the surrender to such State of any fugitive criminals, Her Majesty may, by Order in Council, direct that the said Act shall

apply in the case of such foreign State; and that Her Majesty may, by the same or any subsequent order, limit the operation of the Order, and restrict the same to fugitive criminals who are in or suspected of being in the part of Her Majesty's dominions specified in the Order, and render the operation thereof subject to such conditions, exceptions, and qualifications as may be deemed expedient:

And whereas a Treaty was concluded on the third day of December last between Her Majesty and the Emperor of Austria, King of Bohemia, &c., &c., and Apostolic King of Hungary, for the mutual extradition of fugitive criminals, which Treaty is in the terms following:—

Her Majesty the Queen of the United Kingdom of Great Britain and Ireland, and His Majesty the Emperor of Austria, King of Bohemia, &c., &c., and Apostolic King of Hungary, having judged it expedient, with a view to the better administration of justice and to the prevention of crime within the two countries and their jurisdictions that persons charged with or convicted of the crimes hereinafter enumerated, and being fugitives from justice, should, under certain circumstances, be reciprocally delivered up; their said Majesties have named as their Plenipotentiaries to conclude a Treaty for this purpose, that is to say:—

Her Majesty the Queen of the United Kingdom of Great Britain and Ireland, the Right Honorable Sir Andrew Buchanan, a member of Her Majesty's Most Honorable Privy Council, Knight Grand Cross of the Most Honorable Order of the Bath, Her Majesty's Ambassador Extraordinary and Plenipotentiary to His Imperial and Royal Apostolic Majesty;

And His Imperial and Royal Apostolic Majesty, the Count Julius Andrassy of Csik-Szent-Kiraly and Kraszna Horka, His Imperial and Royal Majesty's Privy Councillor, Minister of the Imperial House and of Foreign Affairs, Grand Cross of the Order of St. Stephen, &c.;

Who, after having communicated to each other their respective full powers, found in good and due form, have agreed upon and concluded the following Articles:—

ARTICLE I.

The High Contracting Parties engage to deliver up to each other those persons who, being accused

or convicted of a crime committed in the territory of the one Party, shall be found within the territory of the other Party, under the circumstances and conditions stated in the present Treaty.

ARTICLE II.

The crimes for which the extradition is to be granted are the following:—

1. Murder, or attempt to murder.
2. Manslaughter.
3. Counterfeiting or altering money, uttering or bringing into circulation counterfeit or altered money.
4. Forgery or counterfeiting, or altering or uttering what is forged or counterfeited or altered; comprehending the crimes designated in the Austrian penal laws or in the Hungarian penal laws and customs as counterfeiting or falsification of paper money, bank notes, or other securities, forgery or falsification of other public or private documents, likewise the uttering or bringing into circulation, or wilfully using such counterfeited, forged, or falsified papers.
- The definition is to be determined accordingly with the Austrian penal laws if the extradition shall take place from Austria, and accordingly with the Hungarian penal laws and customs if the extradition shall take place from Hungary.
5. Embezzlement or larceny.
6. Obtaining money or goods by false pretences.
7. Crimes against bankruptcy law: comprehending the crimes considered as frauds committed by the bankrupt in connection with the bankruptcy, according with the Austrian penal laws if the extradition shall take place from Austria, and with the Hungarian penal laws if the extradition shall take place from Hungary.
8. Fraud by a bailee, banker, agent, factor, trustee, or director or member or public officer of any company, made criminal by any law for the time being in force.
9. Rape.
10. Abduction.
11. Child stealing, kidnapping, and false imprisonment.
12. Burglary or housebreaking.
13. Arson.
14. Robbery with violence or with menaces.
15. Threats by letter or otherwise with intent to extort.
16. Sinking or destroying a vessel at sea, or attempting to do so.
17. Assaults on board a ship on the high seas, with intent to destroy life, or to do grievous bodily harm.
18. Revolt, or conspiracy to revolt, by two or more persons on board a ship on the high seas, against the authority of the master.
19. Perjury or subornation of perjury.
20. Malicious injury to property, if the offence be indictable.

The extradition is also to take place for participation in any of the aforesaid crimes, as accessory either before or after the fact, provided such participation be punishable by the laws of both the Contracting Parties.

In all these cases the extradition will only take place from the Austro-Hungarian States when the crimes, if committed in Austria, would, according to Austrian law, constitute a "Verbrechen," or, if committed in Hungary, would, according to the laws and customs being in force in Hungary, constitute a crime ("buntett"); the extradition from Great Britain only when the crimes, if committed in England, or within English jurisdiction, would constitute an extradition crime, as described in the Extradition Acts of 1870 and 1873.

ARTICLE III.

In no case and on no grounds whatever shall the High Contracting Parties be held to concede the extradition of their own subjects.

ARTICLE IV.

The extradition shall not take place if the person claimed on the part of the Government of the United Kingdom, or the person claimed on the part

of the Government of Austria-Hungary, has already been tried and discharged or punished, or is still under trial, in the Austro-Hungarian dominions, or in the United Kingdom respectively, for the crime for which his extradition is demanded.

If the person claimed on the part of the Government of the United Kingdom, or if the person claimed on the part of the Government of Austria-Hungary, should be under examination for any other crime in the Austro-Hungarian dominions, or in the United Kingdom respectively, his extradition shall be deferred until the conclusion of the trial, and the full execution of any punishment awarded to him.

Should an individual whose extradition is demanded be at litigation, or be detained in the country on account of private obligations, his surrender shall nevertheless be made, the injured party retaining the right to prosecute his claims before the competent authority.

ARTICLE V.

The extradition shall not take place if, with respect to the crime for which it is demanded, and according to the laws of the country applied to, criminal prosecution and punishment has lapsed.

ARTICLE VI.

A fugitive criminal shall not be surrendered if the offence in respect of which his surrender is demanded is one of a political character, or if he proved that the requisition for his surrender has, in fact, been made with a view to try or punish him for an offence of a political character.

ARTICLE VII.

If an individual whose extradition is demanded by either of the High Contracting Parties, in accordance with the terms of this treaty, be also claimed by one or several other Powers on account of other crimes committed on their territory, he shall be surrendered to the Government in whose territory his gravest crime was committed; and if his crimes are all of the same gravity, or a doubt exists as to which is the gravest, to the Government which first made application for his surrender.

ARTICLE VIII.

A surrendered person shall in no case be kept in arrest or subjected to examination in the State to which he has been surrendered on account of another previous crime, or any other grounds than those of his surrender, unless such person has, after his surrender, had an opportunity of returning to the country whence he was surrendered, and has not made use of this opportunity, or unless he, after having returned there, reappears in the country to which he has already been surrendered.

This stipulation does not refer to crimes committed after surrender.

ARTICLE IX.

Requisitions for surrender shall be made by the Diplomatic Agents of the High Contracting Parties.

To the requisition for the surrender of an accused person there must be attached a warrant issued by the competent authorities of the State which demands extradition, and such proofs as would, according to the laws of the place where the accused was found, justify his arrest if the crime had been committed there.

If the requisition refers to a person already convicted, the sentence passed by the competent Tribunal of State demanding his surrender must be produced.

No requisition for surrender can be based on a conviction in *contumaciam*.

ARTICLE X.

If the requisition for extradition be in accordance with the foregoing stipulations, the competent authorities of the State applied to shall proceed to the arrest of the fugitive.

The prisoner is then to be brought before a competent Magistrate, who is to examine him and to

conduct the preliminary investigation of the case, just as if the apprehension had taken place for a crime committed in the same country.

ARTICLE XI.

A fugitive criminal may, however, in urgent cases be arrested under a warrant of a Police Magistrate, Judge of the Peace, or of any other competent authority in either country, on such information or complaint, or such evidence as would, in the opinion of the person issuing the warrant, justify the issue of a warrant if the crime had been committed or the prisoner convicted in the district in which the authority happens to be: provided, however, that he shall be discharged if, within the shortest time possible, and at the utmost within fourteen days, a requisition for his surrender in accordance with the terms of Article IX of this Treaty is not made by the Diplomatic Agent of the State which demands his extradition.

ARTICLE XII.

The extradition shall not take place before the expiration of fifteen days from the apprehension, and then only if the evidence be found sufficient, according to the laws of the State applied to, either to justify the committal of the prisoner for trial, in case the crime had been committed in the territory of the said State, or to prove that the prisoner is the identical person convicted by the Courts of the State which makes the requisition.

ARTICLE XIII.

In the examinations which they have to make in accordance with the foregoing stipulations, the authorities of the State applied to shall admit as entirely valid evidence the sworn depositions or statements of witnesses taken in the other State, or copies thereof, and likewise the warrants and sentences issued therein, provided such documents are signed or certified by a Judge, Magistrate, or Officer of such State, and are authenticated by the oath of some witness, or by being sealed with the official seal of the Minister of Justice, or some Minister of State.

ARTICLE XIV.

If sufficient evidence for the extradition be not produced within two months from the date of the apprehension of the fugitive, he shall be set at liberty.

ARTICLE XV.

All articles seized, which were in the possession of the person to be surrendered at the time of his apprehension, shall, if the competent authority of the State applied to for extradition has ordered the delivery thereof, be given up when the extradition takes place; and this delivery shall extend not only to property of the accused, and to the stolen articles, but also to everything which may serve as a proof of the crime. If the extradition cannot be carried out in consequence of the flight or death of the individual who is claimed, the delivery of the above-mentioned objects shall take place nevertheless.

ARTICLE XVI.

Each of the Contracting Parties shall defray the expenses occasioned by the arrest within its territories, the detention, and the conveyance to its frontier, of the persons to be surrendered, in pursuance of this Treaty.

ARTICLE XVII.

The stipulations of the present Treaty shall be applicable to the Colonies and foreign possessions of Her Britannic Majesty.

The requisition for the surrender of a fugitive criminal who has taken refuge in any of such Colonies or foreign possessions shall be made to the Governor or chief authority of such Colony or possession by the chief Consular Officer of Austria-Hungary in such Colony or possession.

Such requisitions may be disposed of, subject always, as nearly as may be, to the provisions of this Treaty, by the said Governor or chief authority, who, however, shall be at liberty either to grant the surrender, or to refer the matter to his Government.

Her Britannic Majesty shall, however, be at liberty to make special arrangements in the British Colonies and foreign possessions for the surrender of Austro-Hungarian criminals who may take refuge within such Colonies and foreign possessions, on the basis as nearly as may be, of the provisions of the present Treaty.

The requisition for the surrender of a fugitive criminal from any Colony or foreign possession of Her Britannic Majesty shall be governed by the rules laid down in the preceding Articles of the present Treaty.

ARTICLE XVIII.

The present Treaty shall come into force ten days after its publication, in conformity with the forms prescribed by the laws of the High Contracting Parties. It may be terminated by either of the High Contracting Parties, but shall remain in force for six months after notice has been given for its termination.

The Treaty shall be ratified, and the ratifications shall be exchanged at Vienna as soon as possible.

In witness whereof, the respective Plenipotentiaries have signed the same, and have affixed thereto the seal of their arms.

Done at Vienna, the 3rd day of December, in the year of Our Lord one thousand eight hundred and seventy-three.

(L.S.) ANDREW BUCHANAN.
(L.S.) ANDRASSY.

And whereas the ratifications of the said Treaty were exchanged at Vienna on the tenth instant:

Now therefore, Her Majesty, by and with the advice of Her Privy Council, and in virtue of the authority committed to Her by the said recited Act, doth order, and it is hereby ordered, that from and after the thirtieth day of March, one thousand eight hundred and seventy-four, the said Act shall apply in the case of the said Treaty with the Emperor of Austria.

NEW GOLD FIELDS.

REWARDS TO DISCOVERERS.

THE Government are prepared to give Rewards to the discoverers of New Gold Fields, in accordance with the following Regulations:—

1. That person will be deemed the discoverer who shall first find gold, mark out a claim, and notify the same in writing to the Gold Commissioner of the district, if there be one—if not, to the Police Magistrate for the district, or of the nearest district. In such notification the discoverer shall state, as nearly as practicable, the exact locality, and the distance from the nearest gold workings, or nearest town.

2. No reward will exceed one thousand pounds. In fixing the amount to be paid for any discovery regard will be had to the number of men employed in the new gold field, its distance from the nearest gold workings, the character of the deposit in which the gold occurs, and the depth of sinking.

3. If two or more persons simultaneously discover gold in the same locality, or in places immediately adjacent, and they each severally comply with the conditions abovementioned, the sum proper to be awarded will be divided amongst the several persons who have discovered the gold fields in such manner the Government may deem just.

4. Rewards shall be given in accordance with the following scale, namely:—

a. For the discovery of a gold field, distant more than twenty miles from the nearest gold workings, and on which there shall be employed three months after the report of the discovery having been made not less than 200 men, a sum not exceeding £500.

b. For the discovery of a gold field, distant more than twenty miles from the nearest gold workings, and on which there shall be employed six months after the report of the discovery not less than 500 men, a sum not exceeding £1,000.

The words "nearest gold workings" shall mean gold workings on which miners are actually employed in searching for gold.

The above rewards are in addition to the prospecting, or reward claims, to which, by the Gold Fields Regulations of 31st October, 1873, discoverers of new fields are entitled.

NEW LINE WITHIN RAILWAY FENCES— BRISBANE TO IPSWICH.

TENDERS will be received at the Office of the Superintendent of Electric Telegraphs, Brisbane, until noon on MONDAY, the 29th day of June next, from persons desirous of contracting for the supply of all materials, except wire and insulators, and for all workmanship necessary for the erection of the undermentioned line of Telegraph, according to the terms, general conditions, and specifications appended hereto.

From Brisbane to near Ipswich, a distance of twenty-six (26) miles, more or less, a line of six wires.

The wire, insulators, and brackets to be supplied by the Government, and delivered to the contractor at Brisbane, about three months after the notification of the acceptance of the Tender.

Tenders must state separately:—

1. Price, per mile, for clearing and timber work.
2. Price, each, for extra poles where necessary.
3. Price, per foot, for extra length poles where necessary.
4. Price, per mile, for affixing insulators, and stretching four wires.
5. Price for taking down four wires on existing line, and stretching two wires with this material on new line, and delivering the balance of the material from old line, insulators, and wire at Brisbane. The existing line of poles also to be removed.

The whole contract to be completed and handed over to the Government within five (5) months from the notification of the acceptance of the Tender.

GENERAL CONDITIONS.

Payment will be made monthly to the extent of seventy-five (75) per cent. on the value of the work reported to have been completed, by the officer appointed to inspect the same; but notwithstanding such report, and payment on account, the Superintendent of Electric Telegraphs, or other officer appointed by him in that behalf, shall have full power at any time afterwards, before final payment shall be made, of rejecting and condemning any of the work or materials in respect of which such report and payments may have been made. The total balance will be paid when the entire contract shall have been completed to the satisfaction of the Government.

The Government reserves to itself the right to make use of the line for the transmission of messages prior to final completion, such use of the line not to prejudice in any way the power to subsequently reject or condemn any portion of the work or materials.

The contractor may avail himself of the facilities afforded by "The Electric Telegraph Act" for obtaining materials, on signing a Bond indemnifying the Government against any claims for compensation arising from the action of the contractor, and providing for any claims being paid by the Superintendent from moneys due to the contractor, if not otherwise settled.

The contractor will be responsible for all claims for compensation for damage to fences, or other property, caused by the erection of the line, also for damage so caused to roads, or railway works;

and if such claims are not defrayed, the Superintendent is authorised to pay the same from any moneys due to the contractor.

Should the contractor fail to proceed in the execution of, or to complete the work in the manner, and at the rate of progress, required by the Government, it shall be in the power of the Government, by a notice in the *Queensland Government Gazette*, to terminate the contract, as far as relates to the work remaining to be done, and to enforce the penalties for the non-fulfilment of the contract; and all sums of money which may be due to the contractor, together with all materials and implements in his possession, on the ground, and all sums of money, whether named in the Bond to be entered into by the contractor or otherwise, as penalties for the non-fulfilment of the contract, shall be forfeited to the Government, and the amount shall be considered as ascertained damages for breach of contract.

Attached to each Tender there must be a memorandum signed by the party tendering and two responsible persons as sureties, agreeing to be answerable for the due performance of the contract within the time stipulated, in the event of the Tender being accepted, and undertaking, in that event, that they will severally execute and deliver, at the office of the Crown Solicitor, in Brisbane, within ten (10) days from the notification of the acceptance of the Tender, a Bond to Her Majesty in a sum equal to twenty (20) per cent. on the amount of the Tender.

The Government does not bind itself to accept the lowest or any Tender.

SPECIFICATION.

The course of the line to be marked out by the contractor, under the direction of the inspecting officer.

All trees and underwood standing within forty (40) feet on each side of the line to be felled, and all timber within a radius of twenty (20) feet from each pole to be cleared away. Any branches overhanging from trees beyond the distance mentioned, which, in the judgment of the inspecting officer, might endanger the line, to be removed. Every care is to be taken not to damage the railway works.

NEW GOLD FIELDS.

REWARDS TO DISCOVERERS.

THE Government are prepared to give Rewards to the discoverers of New Gold Fields, in accordance with the following Regulations:—

1. That person will be deemed the discoverer who shall first find gold, mark out a claim, and notify the same in writing to the Gold Commissioner of the district, if there be one—if not, to the Police Magistrate for the district, or of the nearest district. In such notification the discoverer shall state, as nearly as practicable, the exact locality, and the distance from the nearest gold workings, or nearest town.

2. No reward will exceed one thousand pounds. In fixing the amount to be paid for any discovery regard will be had to the number of men employed in the new gold field, its distance from the nearest gold workings, the character of the deposit in which the gold occurs, and the depth of sinking.

3. If two or more persons simultaneously discover gold in the same locality, or in places immediately adjacent, and they each severally comply with the conditions abovementioned, the sum proper to be awarded will be divided amongst the several persons who have discovered the gold fields in such manner the Government may deem just.

4. Rewards shall be given in accordance with the following scale, namely:—

a. For the discovery of a gold field, distant more than twenty miles from the nearest gold workings, and on which there shall be employed three months after the report of the discovery having been made not less than 200 men, a sum not exceeding £500.

b. For the discovery of a gold field, distant more than twenty miles from the nearest gold workings, and on which there shall be employed six months after the report of the discovery not less than 500 men, a sum not exceeding £1,000.

The words "nearest gold workings" shall mean gold workings on which miners are actually employed in searching for gold.

TREATY OF COMMERCE AND NAVIGATION BETWEEN GREAT BRITAIN AND FRANCE.

*Signed at Versailles, July 23, 1873.—Ratifications
exchanged at Paris, August 4, 1873.*

Her Majesty the Queen of the United Kingdom of Great Britain and Ireland and the President of the French Republic, being equally animated with the desire to draw closer the ties of friendship which unite the two countries, and of placing on a satisfactory footing the commercial and maritime relations between the two States, have, with this object, determined to conclude a Treaty of Commerce and Navigation, and they have accordingly appointed their respective Plenipotentiaries, that is to say:

Her Majesty the Queen of the United Kingdom of Great Britain and Ireland, the Right Honorable Richard Bickerton Pemell Lord Lyons, a Peer of the United Kingdom of Great Britain and Ireland, Knight Grand Cross of the Most Honorable Order of the Bath, one of Her Britannic Majesty's Most

Honorable Privy Council, and Her said Majesty's Ambassador Extraordinary and Plenipotentiary to the French Republic, &c., &c., &c.;

And the President of the French Republic, M. le Duc de Broglie, Minister for Foreign Affairs, Vice-President of the Council, Chevalier of the National Order of the Legion of Honour, &c., &c., &c.;

Who, after having communicated to each other their respective full powers, found in good and due form, have agreed upon the following Articles:—

ARTICLE I.

The Treaty of Commerce concluded on the 23rd of January, 1860, between the United Kingdom of Great Britain and Ireland and France, as also the Supplementary Conventions of the 12th of October and 16th of November of the same year, are again put in force in all their stipulations and in their full tenour, and shall continue to have effect as before the Act of Denunciation of the 15th of March, 1872.

The High Contracting Parties guarantee to each other reciprocally, as well in the United Kingdom as in France and Algeria, the treatment, in all respects, of the most favoured nation.

It is, therefore, understood that, in conformity with the stipulations of Article XIX of the Treaty of Commerce, concluded on the 23rd of January, 1860, and of Article V of the Supplementary Convention of the 16th of November of the same year, each of the High Contracting Parties engages to give the other, immediately and unconditionally, the benefit of every favor or immunity, every privilege or reduction of Tariff in regard to the importation of merchandize, whether mentioned or not in the Treaty and Conventions of 1860, which have been or may be conceded by one of the High Contracting Parties to any foreign nation whatsoever, whether within or beyond Europe.

It is likewise understood that, in all that relates to transit, warehousing, exportation, re-exportation, local dues, brokerage, Customs formalities, samples, designs for manufactures, and likewise in all matters relating to the exercise of commerce and industry, British subjects in France or in Algeria, and French in the United Kingdom, shall enjoy the treatment of the most favored nation.

ARTICLE II.

British ships and their cargoes shall, in France and in Algeria, and French ships and their cargoes shall, in the United Kingdom of Great Britain and

Ireland, from whatever place arriving, and whatever may be the place of origin or destination of their cargoes, be treated in every respect as national ships, and their cargoes.

The coasting trade, however, is excepted from the preceding stipulation, and remains subject to the respective laws of the two countries.

ARTICLE III.

The High Contracting Parties agree to settle by means of a Supplementary Convention, the ratifications of which shall be exchanged before the 31st of January, 1874, such arrangements as may appear to them to be necessary in regard to Consular attributions, to transit and Customs regulations affecting entry of goods, expertise, samples, and any other matters of the like nature; and they agree, moreover, to substitute this Supplementary Convention for the stipulations about similar matters comprised in the Treaties and Conventions of 1860.

ARTICLE IV.

Mineral oils of British origin shall be admitted into France and Algeria from the 1st of January, 1874, or sooner, if possible, at a Customs duty of 5 per cent., that is to say, at the rate of duty levied previously to the passing of the Law of the 8th of July, 1871. It is, nevertheless, agreed that the said oils shall, in conformity with the stipulations of Article IX of the Treaty of 23rd of January, 1860, again put into force by Article I of the present Treaty, be likewise subject to the duty of 5 fr. or 8 fr. per 100 kilog. established on crude or refined oils by the Law of the 16th of September, 1871, or that which may be hereafter levied on the like oils manufactured in France.

A Commission, consisting of one member on the part of each Government, shall meet at Paris immediately after the ratification of the present Treaty, in order to settle, as hereinafter directed, questions concerning duties levied in France on British mineral oils, as well as to consider and report on any other questions which the High Contracting Parties agree, or shall agree, to refer to it.

The benefit of the above provisions shall be extended to British mineral oils, to be supplied to persons in France under contracts entered into before the promulgation of the Law of the 8th of July, 1871.

The Commission shall examine how far it would be possible to effect reimbursement of duties levied in excess of the duty of 5 per cent., and the tax of 5 fr. or 8 fr. per 100 kilog. above referred to, in the case of British mineral oils introduced into France since the promulgation of the Law of the 8th of July, 1871, otherwise than in pursuance of contracts previously entered into.

In regard to the contracts above referred to, the settlement shall include indemnification for actions for breaches of contracts entered into before the enforcement of the Law of the 8th of July, 1871.

The High Contracting Parties, before the exchange of the ratifications of the present Treaty, shall name some third person to act as arbitrator in regard to any points in connection with the questions above referred to which relate to mineral oils and on which the Commissioners may themselves differ in opinion. The Commission shall refer any such points to the Arbitrator, whose decision shall be binding on the Commissioners, and shall be reported by them accordingly.

The High Contracting Parties shall forthwith carry out the decision come to by the Commission or by the Arbitrator.

ARTICLE V.

The present Treaty shall remain in force until the 30th of June, 1877. In case neither of the two High Contracting Parties should have notified twelve months before the said date the intention of putting an end to it, it shall remain binding until the expiration of one year from the day on which either of the two High Contracting Parties shall have denounced it.

ARTICLE VI.

The President of the French Republic engages to apply to the National Assembly for the necessary authorization to ratify and give effect to the present Treaty immediately after its signature.

The ratifications shall be exchanged at Paris as soon as possible, and the Treaty shall immediately come into force.

In witness whereof the respective Plenipotentiaries have signed the present Treaty, and have thereto affixed the seals of their arms.

NEW GOLD FIELDS.

REWARDS TO DISCOVERERS.

THE Government are prepared to give Rewards to the discoverers of New Gold Fields, in accordance with the following Regulations:—

1. That person will be deemed the discoverer who shall first find gold, mark out a claim, and notify the same in writing to the Gold Commissioner of the district, if there be one—if not, to the Police Magistrate for the district, or of the nearest district. In such notification the discoverer shall state, as nearly as practicable, the exact locality, and the distance from the nearest gold workings, or nearest town.

2. No reward will exceed one thousand pounds. In fixing the amount to be paid for any discovery regard will be had to the number of men employed in the new gold field, its distance from the nearest gold workings, the character of the deposit in which the gold occurs, and the depth of sinking.

3. If two or more persons simultaneously discover gold in the same locality, or in places immediately adjacent, and they each severally comply with the conditions abovementioned, the sum proper to be awarded will be divided amongst the several persons who have discovered the gold fields in such manner the Government may deem just.

4. Rewards shall be given in accordance with the following scale, namely:—

a. For the discovery of a gold field, distant more than twenty miles from the nearest gold workings, and on which there shall be employed three months after the report of the discovery having been made not less than 200 men, a sum not exceeding £500.

b. For the discovery of a gold field, distant more than twenty miles from the nearest gold workings, and on which there shall be employed six months after the report of the discovery not less than 500 men, a sum not exceeding £1,000.

The words "nearest gold workings" shall mean gold workings on which miners are actually employed in searching for gold.

The above rewards are in addition to the prospecting, or reward claims, to which, by the Gold Fields Regulations of 31st October, 1873, discoverers of new fields are entitled.
